

20 Setting up a machine centre with mounting towers.

Process steps taken from retrieving the mounting tower to the pallet loader up to manufacturing.

Clamp to mount round work pieces.

The front and rear can be processed by rotating the clamping plate without reclamping the work-piece.

Synergized competence:

We are members of the Roemheld Group and our customers benefit from the synergies created by our co-operation with other competent technology companies. The Roemheld Group is globally orientated and serves industrial customers all around the world.
